

Ulla

The Smart Hydration Reminder

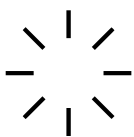

PROMOTIONAL GIFT
AWARD 2016

Why Ulla?

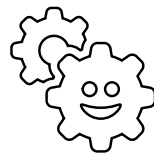

- Place your brand on your client's office desk and make them look at it at least every 35 minutes.
- An ideal gift for your employees. Help them improve their well-being and performance.
- The perfect smart gadget for promoting health and welfare.

How does it work?

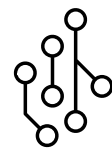

Easily attach Ulla to any bottle or glass and maintain a healthy hydration habit!

Ulla discreetly blinks to remind you to drink water only if you haven't taken a sip in the last 35 minutes. The interval resets to 35 minutes each time you take a sip.

It's 100% automatic and user friendly, it doesn't require any apps or cables, it comes with an easily replaceable battery, and doesn't emit any annoying sounds, making it ideal for the office.

Ulla is not just a blinking light. It's a hi-tech gadget that improves your water drinking habits. It does not bother you when you drink regularly, which is very important for use at the working place.
