No certifications are available for this product

Product description

The Marka bottle features stainless steel vacuum construction with copper insulation that keeps drinks hot or cold for several hours. The insulated 18/8 stainless steel construction prevents condensation on the outside of the bottle, and the on-trend powder-spray finish makes it extra durable. It also features a screw-on, spill-resistant lid and a durable, zinc-alloy hand loop. BPA-free, tested and approved under German Food Safe Legislation (LFGB). Tested and approved for phthalates content according to REACH regulations. Fits most standard car cup holders. Volume capacity is 600 ml. Hand wash recommended. Presented in a recycled cardboard gift box.
