

Declaration of Compliance

We confirm that the bottles we supply meets the *EU regulations for materials, plastic materials and articles intended to come into contact with food: 10/2011, 1935/2004 and 2023/2006*. The ingredient raw material in the bottles is

High Density Polyethylene - Green - Copolymer ethylene with 1-butene.

There is n no further additives beyond plastics and masterbatch (color pigment) in the process. The articles are free from Bisphenol A and Phtalates. All included components in the articles are approved according to *the REACH regulation 1907/2006*. For specification of SML substances and dual use additives in the masterbatch please contact us.

Migration test are performed according to 10/2011. We have tested with following food simulants:

- 3% acetic acid in dest water (food simulant B)
- 10% ethanol in dest water (food simulant A)
- 20% ethanol in dest water (food simulant C)
- 50% ethanol in dest water (food simulant D1)
- Olive Oil (food simulant D2)

The area of use for these food simulants are listed in EU directive 10/2011, Annex III Food Simulants Article 3, Table 2.

Overview areas of use:

- Beverages, clear and cloudy (for example water, cider, juice, syrups)
- Alcoholic beverages of an alcoholic strength of between 6% vol and 20%
- Alcoholic beverages of an alcoholic strength above 20% and all cream liquors
- Fats and oils
- Animal products and eggs
- Milk products
- Confectionery products, sugar and sugar products in paste or liquid form
